

CHARLES-CHUKWUDI CHUKWUDI

Full-Stack Developer • Backend Engineer • Tech Educator

Umuahia, Abia State, Nigeria | +234 706 069 1695 | charleschukwudichukwudi@gmail.com
Portfolio: chukstech.onrender.com | GitHub: github.com/ChuksTech007

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer and Backend Engineer with hands-on experience building production-grade systems across food delivery, fleet management, school management, and sports platforms. Proficient in Node.js, Laravel, PHP, Python, React, Next.js, and NestJS, with strong database expertise across MySQL, MongoDB, and PostgreSQL. Experienced tech educator who has taught backend development, PHP, and Python at institutional and community levels. Equally skilled in virtual administration, community management, and remote collaboration, combining technical depth with operational adaptability.

TECHNICAL SKILLS

Backend	Node.js, Express.js, NestJS, Laravel, PHP, Python, Livewire, REST API Design, Microservices, JWT Auth, Socket.io
Frontend	React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap 5, Tailwind CSS
Databases	MongoDB (Mongoose, Aggregations, Geospatial), MySQL, PostgreSQL, Supabase
DevOps/Tools	Docker, Git/GitHub, Linux, Swagger/OpenAPI, Cloudinary, Firebase/FCM, Google Maps API, Paystack, Kudi SMS
Admin/VA	Google Workspace, Microsoft Office, Email & Calendar Management, Data Entry, Online Research, Document Prep
Soft Skills	Tech Mentoring, Community Management, Team Collaboration, Problem Solving, Time Management
Languages	English (Fluent), Igbo (Native)

PROFESSIONAL EXPERIENCE

Backend Engineer Oct 2025 – Present

OunjeFood – Food Delivery & Logistics Platform | Remote

- Built scalable backend services for a multi-vendor platform (customers, vendors, riders) using Node.js, Express, and MongoDB.
- Architected microservices separating mobile and kitchen systems with secure cross-service data synchronization.
- Developed real-time order tracking with Socket.io and geospatial rider dispatch using MongoDB \$2dsphere indexing.
- Integrated Paystack for automated multi-party payouts with idempotent webhook handling and internal ledger logic.
- Implemented Google Maps-based delivery routing, OTP delivery verification, and Firebase/Kudi SMS notifications.
- Designed reusable pagination/filter utilities and standardized REST APIs across Orders, Dishes, and Ledger modules.
- Implemented Dedicated Virtual Accounts (DVAs) via Paystack for wallet top-ups, including webhook handling and idempotency.

Backend Tutor (PHP & Python) Nov 2025 – Feb 2026

Aptech Umuahia | Umuahia, Abia State

- Delivered structured classroom instruction in PHP and Python to students at varying skill levels.
- Designed lesson plans and practical exercises covering OOP principles, server-side scripting, database interaction, and API fundamentals.
- Assessed student progress through assignments and projects, providing detailed feedback to reinforce learning outcomes.
- Supported students in debugging and building real-world mini-projects, bridging theory and practical application.

Frontend Tutor & Community Manager Mar 2025 – Jan 2026

ScaleFort | Remote

- Mentored 20+ students in HTML, CSS, JavaScript, and Bootstrap, guiding them through responsive websites and dynamic web apps.
- Led onboarding, engagement activities, and daily communications for a large Tech Challenge community.
- Organized interactive learning sessions including an AI-powered website-building class.

4. Collaborated with cross-functional teams on assigned tasks, bug resolution, and feature delivery using Git/GitHub workflows.

Virtual Assistant

Jun 2025 – Aug 2025

Crowned and Clear | Remote

1. Provided comprehensive administrative and technical support, ensuring smooth daily remote operations.
2. Managed digital files and documentation, implementing efficient organizational systems for easy retrieval.
3. Handled correspondence, coordinated schedules, and facilitated effective information flow between team members and clients.
4. Assisted with online research, data compilation, and content preparation across multiple projects.
5. Resolved technical queries and optimized digital workflows using problem-solving and initiative.

Laravel Developer (Intern)

Sep 2024 – Dec 2024

ECR Technology Services | Umuahia, Abia State

1. Developed dynamic backend systems and admin interfaces for managing content (blog posts, announcements, videos, audio).
2. Integrated payment and data synchronization APIs; contributed to database design and query optimization.
3. Collaborated in a multi-functional team integrating frontend, backend, and AI functionalities seamlessly.

Web Developer

Jun 2024 – Aug 2024

Pumeco Industry Nigeria Limited | Umuahia, Abia State

1. Built a fleet and fuel management system (Laravel + RBAC) for a road construction firm covering multi-branch operations.
2. Designed admin interfaces for project tracking, gallery management, and content publishing.
3. Implemented secure authentication via Laravel Breeze and custom middleware; handled audit logging and DB transactions.

EDUCATION

Federal University of Technology Owerri (FUTO)

2020 – 2025

B.Eng — Electrical and Electronics Engineering | Owerri, Imo State, Nigeria

CERTIFICATIONS

Full-Stack Web Developer Certification – ECR Technological Service
